\*Working committee meetings will not include a public comment section. The meetings will continue to be open to the public, except during executive session, and the community is invited to attend and observe. This will ensure the members of the committee have ample time to have discussion and work on the planned project. Members of the community who want to speak should plan to do so at Regular Board Meetings or can always contact the Library Board via email - [libraryboard@andersonlibrary.org](mailto:libraryboard@andersonlibrary.org)
